They mainly took him to the bathroom, made lunch or get him a drink, talked, watched TV or a movie with him, & watched him sleep. Previously home health workers, such as physical and occupational therapists, social workers, and nurses, have come to our home and added to our knowledge following hospitalizations, surgeries, cancer treatments, and falls resulting in broken ribs. We have had our home assessed for safety previously and I hired an OT to help provide ideas for more recent PD-related challenges (i.e. getting the patient out of bed and to a standing position, standing without fainting, etc.) I have attended one Caregiver Support Group meeting for PD caregivers and hope to attend another this month.	10/1/2016 5:52 PM

3	More time they can stay, so I don't have to rush so much going shopping or to Doctor's appointments.	6/4/2022 3:53 PM
4	Allow continued funding for services longer than one year. Compensate family caregivers for their time when they are no longer able to work to care for someone else. Maybe offer grant money or some kind of grand funding which will allow caregivers who have had to quit working to care for someone else, grants to assist caregiver in paying their own bills, grants to assist in credit repair and school, tax credits for full-time caregivers, food stamps to assist caregivers not working.	6/4/2022 3:45 PM

13	The allotted amount of \$1500 is not near enough money. More money should be allocated to the Caregiver Support Program.	6/4/2022 2:27 PM
14	We spent 2 years in care facilities. It was depressing and a poor patient to caregiver ratio. We are so much happier and healthier being home. Any help you can give to make that a reality is more beneficial and cost effective than care facilities.	5/27/2022 5:17 PM
15	Because of the stress and lack of knowledge/skills in trying to be a caregiver - and seeing no end in sight - I wanted to die. It was the only solution I could think of. MAG literally SAVED me. The support, education, coping methods and caregiving skills have been invaluable! Thank you for this program. And I'm thankful for having a friend who knew about the program because I had never heard of it. Doctors had not mentioned it. More needs to be done in getting the word out that this program exists.	5/27/2022 5:12 PM

21	Funding should be a priority as so many need care.	5/27/2022 4:16 PM
22	This is a much needed service and more funding is a necessity!	5/27/2022 3:47 PM
23	Connecting services available to those that need it is most helpful, useful and the key to this program.	5/27/2022 3:09 PM
24	More funding and fewer hoops to qualify and not income/asset-based.	5/27/2022 2:59 PM
25	This program and more are very much needed! We need to prioritize money and help for our most vulnerable even more. I think the State legislature needs to know the urgent needs and crises of caregivers, and ease the laws for Medicaid/Medicare approval and financially support us more. Prevent spousal impoverishment! We shouldn't have to pay \$5000 to hire a company to get us on Medicaid!	5/27/2022 2:41 PM
26	Government assistance to caregivers will continue to make functioning citizens particularly for families that cannot afford private care.	3/11/2022 11:57 AM
27	Intermediate training and funding needed	3/11/2022 11:47 AM
28	Keep the funding coming! This is a very beneficial program!	3/11/2022 11:42 AM
29	People work their whole lives to provide for their retirement. Then something happens and you're required to become indigent before any financial support is offered. Caring for the elderly needs to be better funded, especially for couples.	3/11/2022 11:38 AM
30	Give them as much funding as you can! This is money well spent and surely lives are improved - both caregivers and the aged.	3/11/2022 11:28 AM

33	I don't know.	2/7/2022 12:08 PM
34	Providing care to an aging parent is an incredibly difficult demanding and stressful experience. As our population ages, it is critically important to provide support to our citizens. This role is as important to our society as child care, and people providing this care are a critical element to our society.	2/7/2022 12:00 PM

49	Please continue this program. It was a tremendous help! Thanks!	1/25/2022 4:48 PM
50	Offering support for caregiver is very critical not just for the caregiver, but also their whole family.	12/30/2021 11:40 AM
51	Make it easier for some of us to get on Medicaid.	12/30/2021 11:06 AM
52	Home and family caregivers seems to be a forgotten group of first and front line workers who need to be recognized and rewarded with support even if it is only in a tax relief benefit.	11/24/2021 2:50 PM
53	I am very grateful for the respite provided and for the acknowledgement of the need to support caregivers in their role.	11/24/2021 11:36 AM
54	It is a very useful and needed program. It let me know I was not alone - I had someone to turn to when I felt helpless.	11/18/2021 4:58 PM
55	I personally believe that this is probably the most useful use of my tax dollars that there is.	11/18/2021 3:33 PM
56	If it's a short-term program, it needs to last until a long-term program can take over. These people do not get better and when the program ends, they and their caretakers are left hanging.	11/18/2021 3:14 PM
57	The program needs to last until a long-term one can pick up the case.	11/18/2021 2:50 PM
58	It is a needed program.	11/18/2021 2:44 PM
59	Keep the program going. Getting old is part of life. Invest more funds to the program instead of spending unnecessary money on fixing the street over and over by working on all projects at the same time. So, it will last.	11/18/2021 2:35 PM
60	Elder caregiving by a spouse can be difficult. It is a blessing to have a care service to help, and a caregiver to come into the home and give the spouse a little break, and the patient gets a new friend.	10/14/2021 12:31 PM
61	When someone suddenly finds themselves in the caregiver role, it is so helpful to have someone you can call.	10/13/2021 10:55 AM
62	Caregivers need support and resources to help keep loved ones home and out of state assistance if feasible.	10/13/2021 10:52 AM
63	It is critical and invaluable for both the caregivers and the impact on society that this program is offered and continually enriched to provide a quality of life to families that have contributed positively to society.	10/13/2021 10:48 AM
64	Caregivers have many challenges in caring for their loved ones. Having some respite without additional financial obligations is very much needed and helpful.	9/30/2021 4:44 PM
65	That \$1500 doesn't go very far. But I'm grateful for what I received.	9/30/2021 3:50 PM
66	Longer benefit timeline. Some folks don't have the means or family support (like me) to care for an aging parent. These older folks with Alzheimer's disease fall through the cracks because some can do so much (like my Mom - eat when directed, dress when directed, and have a conversation). More funding to support Alzheimer's disease research, funding for Alzheimer's disease caregivers. A Medicaid overhaul on the "Aging Waiver Program" which doesn't work for my Mom and it should unless I pay a Medicaid Program Specialist \$500 to find a "loophole" in program (called Medicaid Planning Services 801-336-1659). What a racket!	9/30/2021 3:40 PM
67	The caregiver support program saved my sanity. It gave me an opportunity to learn of services available. The program impacted my life for the better which in turn helped me to be a better caregiver. This program can help those people that are faced with caring for the aging. Thank you!	9/30/2021 3:22 PM

70	Putting him in a care facility is really draining our financial resources. Now I won't have enough money to care for myself. The longer the person can live at home, the better financially.	9/30/2021 2:50 PM
71	Most of the caregivers were or are trained in the field they service. Training, communicate and increase in what skills they already have and would like to share. Would help everyone.	9/30/2021 2:37 PM
72	Just because the program ends doesn't mean the care ends. The mental and financial burden doesn't go away, and the older Dad gets the harder he is. It would be extremely beneficial for Dad that I get the support I need to take care of him. I work part-time and funding extra care is not attainable for me.	9/30/2021 2:23 PM

77	The spouse to caregiver transition was nothing I was prepared for. I heard about the county's Aging Services from a friend whose father had utilized their services years ago. I would highly recommend that this county service was more visibly marketed to those who are searching for help and assistance and in the dark when it comes to reaching out for what is available within their own community. Also, more funding to prolong assistance if needed.	8/6/2021 2:42 PM

226	Very grateful for all the assistance and supplies provided on behalf of myself and my wife. We are so thankful for the services and caregivers.	12/4/2019 10:44 AM
227	There are so many struggling to care for their loved ones without help! No one has enough money to hire help, even with maintenance on the home and yard. It is so difficult to have to do everything that used to take two people to do. Now it's all one person's sole responsibility. Caregivers health may not be good, so it is even harder to take care of the loved one's needs.	12/4/2019 10:38 AM
228	This program saved me from going completely off the wall. It gave me hope as well as support! For almost 6 months I had a helper come into my home for 3 hours a week. She was wonderful!	11/7/2019 2:44 PM
229	Increase it because it is so wonderful.	10/31/2019 1:00 PM

243	It's about loving and caring for the people you love. It's not easy! To have some back-up support to help take some of the mental toll this presents.	8/7/2019 3:28 PM
244	That the support services do not LAST LONG ENOUGH. The damage from stroke DOES not go away!	8/7/2019 3:22 PM
245	I don't want to place my loved one in a home. The care they get is super expensive especially when you see how limited the supports really are. I would feel like I was abandoning her and they would neglect her. I also think what I do at home gives her more dignity, better care and allows her to age in place in a more cost effective way. I wish there were more resources to enable me to keep this program because it is so needed so that I can help her.	8/7/2019 3:18 PM
246	Increase the limits of funds.	8/7/2019 3:10 PM

251	This program allowed me as a caregiver, freedom and the security of knowing my friend's health was monitored and issues were taken care of that I could not. Having this program gave Gordon reason to get up each day because of the caretakers in your program. He enjoyed the relationship with the staff. It allowed Gordon not to worry about the loss of our friendship over him being a burden to me. Not only does this program help with his physical needs but his mental outlook as improved.Thank you so much for the help and care. This has improved his life.	8/1/2019 1:40 PM

262	The support program was very helpful in caring for my husband's parents! The respite care (1 time per week) during the final three weeks of my father-in-law's life was so helpful and allowed my husband, my sister-in-law and myself to get much needed sleep! This help was a great stress-relief during a very difficult time!	5/29/2019 10:19 AM
263	Even though a person is a full-time caregiver, they also need individual care, help showering, clean home, etc. It seems that your people feel if you're a caregiver they need no individual care. A caregiver must not waste their energy but must conserve energy to be effective.	5/29/2019 10:12 AM

268	This program is very important as a source for caregiving. We need ongoing help. It is hard to pay for in home help and still work. Support has been so helpful! I have lowered my hours to 9 a week but still need someone to care for my mom 24/7. Lower pay does not help pay for private pay for a caregiver. So the support is greatly needed.	5/13/2019 2:30 PM

273	Caring for a partner/Alzheimer's Disease is lonely, frightening, all consuming. The caregiver shows us how we can have a positive outlook, get and not feel getting for getting assistance so that the caregiver can maintain health and be available for years if necessary -- We can't do it alone! Many thanks!	5/13/2019 2:09 PM

303	It's too overwhelming to sit down and try to go over how hard it is to take care of someone with dementia everyday. There are so many aspects of the disease that change and get worse for just one person or family to handle. It's hellish at times when you lose a parent mentally and there body's don't work anymore. financial revenues lost by the state Liquor stores money that should be accounted for down to the dollar going to programs such as the caregivers program which benefited us and many others. I am Not impressed with the mismanagement of funds! Example: \$250,000 for a "Teen Chef" show benefiting only 12 children. Ridiculous! Transfer that to lunches, nurses and programs such as Memory matters and The Washington County programs resource! Dear Sheri et al, Thank you so much for providing me with resources techniques and strategies which helped Mark so very much. Sheri's visits were so welcome by both of us. I could not have navigated this with out your help.

340	This program has been so hugely beneficial. It provides 1) opportunity to talk to adults who don't know repeat everything every 5 minutes and questions all you do.2)time to shop and look around, Not just absolute necessities. 3) Opportunity to go to doctors and dentist. without finding someone to stay with him he is lost in the neighbor hood, can't find food, is possessive of me and my time. It is scary for him without me. I don't want him to be frightened. I am sole caregiver so keeps all the records, pay bills driver, clean and monitor ADL, do all acts homemakers do normally as well as services car, do yard work, etc. This program is a great stress release, it helps us stay in our home a great financial relief. It gives him exercise, food, stimulations, exercise he won't necessarily do for me. Thank you form the bottom of my heart!	6/24/2018 3:37 PM

348	It is absolutely necessary! Especially if you want to keep your family member at home. I wish that I had had a better understanding that these resources were available to me and what was offered at an earlier time in my care-giving experience. I'm glad you were there for my Mother. Unfortunately I had to put my (now es) husband in a care center because of dementia (he was only 58), but if I had know about these services, I might have been able to delay that.	5/8/2018 11:16 AM
349	Help with financial resources is very helpful.	5/8/2018 11:05 AM
350	This program is so beneficial in enabling seniors to receive supportive services in a very economically prudent manner. limits/minimizes burden on health care systems. LTC or SNF and assists caregivers to be able to continue living their lives working, decreases stress. The support enabled my mom to be able to return home to be safe in her home. More funding needs to be considered as more seniors will be in need of care. Home setting is best setting for most.	5/8/2018 10:52 AM
351	The program needs to be continued longer. The additional cast of supplies will have to be paid by me which puts a strain on my own finances and may make a difference in I keep her in my house or have to move her to a care center.	5/3/2018 4:20 PM

371	These services are life changing not only for the caregiver but also for the individual receiving the care. It makes no sense why Medicare or other government entities don't build into the overall budget a way for caregivers to receive benefits, funds and other means of support to help ensure their loved ones are cared for and also allowing the caregiver to also have some relief from additional services without the financial burden and emotional stress for all parties involved.	2/5/2018 10:03 PM

With the help of these programs, we didn't feel like we were doing this by ourselves. We didn't have much family help but we had a lot of help from our case workers, nurses, aids, and community programs. Please continue funding for these programs. They are so helpful to the families that need to give health assistance to our loved ones. With the cost of his prescriptions, medicare, medicare supplemental, dental, vision, & my own medical insurance & prescriptions, we pay out a lot every month. 493	I think that the general public doesn't realize what a burden good caregiving is. Whether caring for infants, young children, older children, folks of any age with disabilities or aging adults with diminishing faculties, caregiving is a huge endeavor, a big and often thankless job. When the caregiver is young and healthy, the job might possibly be easier. But when one senior citizen cares for another who is very ill, it is not unusual to hear the caregiver say, "This job is killing me!" and mean it.	10/1/2016 6:04 PM
494	More funding is needed for caring for the elderly !!!	9/13/2016 8:44 PM
495	More programs for younger people. My husband was diagnosed with alzheimers at age 52. This is the first help that I have been able to find that is not age based or income based. Again, just because I work and can pay my bills doesn't mean I can afford \$1300 per month in day care, and will not ever be able to afford \$5000 per month for a memory care facility. This is all on me and what little savings I have will be exhausted. More needs to be done. This is a very long journey and living/caring for someone for that length of time is more difficult than I can explain.	9/3/2016 10:12 AM
496	More help to caregivers, time, money, etc	8/3/2016 1:33 PM
